

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 769267.

PortForward

TOWARDS A GREEN AND SUSTAINABLE ECOSYSTEM FOR THE EU PORT OF THE FUTURE

Smart Port

Employing ICT solutions to improve information flows between ports and port communities.

Green Port

Adopting green technologies to reduce the environmental impacts of port operations and save resources.

Interconnected Port

Combining different modes of transport and integrating different technologies to better monitor and control freight flows.

Consortium
